Concerned about the easy availability of guns in our society?

Alarmed about the "gun nuts" and other freedom wackos the government allows to run loose?

Wish the government would just repeal the Second Amendment and confiscate all the guns because you believe sensible people shouldn't suffer because on some antiquated right?

While we can't take the guns away from the people, we CAN take the people or at least SOME of them (the ones we don't particularly like) away from the guns.

At **CAMP GUNFREE**, we have created an atmosphere of near-total tranquility where you and your family will experience the benefits of a GUN FREE environment.

The striking architecture of the main gate at Camp GunFree welcomes new arrivals

Each of our camps is a gated community designed to keep guns away from camp guests. Firmly enforced security measures ensure that these dangerous and destructive devices are kept outside. Each camp boasts 24 hour, 7 day a week sentries and state-of-the-art enclosure systems, guard dogs, trenches and surveillance equipment to absolutely GUARANTEE that no firearms enter the facility. Rigidly controlled access ensures that no guns can ever be smuggled in.

No cost has been spared to ensure that Camp GunFree remains gun free.

All camp members are given distinctive uniforms to distinguish them from any gun-toting barbarians who might attempt to evade our security measures. Each camp member is also assigned a distinctive ID number to ensure that only the right people are allowed within the camp.

Room and board are provided to each member in exchange for rewarding tasks designed to provide a sense of accomplishment and to demonstrate that large numbers of people CAN exist in a gun violence free community.
